NETWORK

The Expert Database of the Europe Dialogue on Migration: Cross-Border Mobility and the European Union Refugee Crisis (CEDoM) brings together a multi-disciplinary expert group in the field of the governance of borders and migration. The core group of multidisciplinary researchers creates a vibrant nation-wide scholarly network designed to address issues related to borders, migration and refugees in EU studies (*developing new network strategies; special issue; interview series; events*). Selected scholars were involved in a series of knowledge dissemination initiatives and engagement strategies targeting public policy stakeholders and civil society organizations. This also allowed the promotion of the knowledge about European integration through the lens of migration and border studies in Canada (*media alerts; events; social media outreach; collaboration with high-schools; video clips*).

César Arjona

**ESADE (Universitat Ramon Llull,
Barcelona)**
